

SUMMER INSTITUTE IN DISEASES IV: Infectious Diseases, Health Policy and Vulnerable Populations (SIIDIV)

June 6 – 10, 2011

In Partnership with the University of Manitoba, Prairie Women's Health Centre of Excellence,
and International Centre for Infectious Diseases

Unique Opportunity

The SIIDIV program offers a unique opportunity for students, practitioners and policy analysts alike. The students at both the undergraduate and graduate levels will receive course credit, whereas the practitioner, researcher and policy analyst will find the program to be a comprehensive refresher course. This program's special learning environment will incorporate learning about issues of contemporary importance in Infectious Diseases, Health Policy and Vulnerable Populations, with a focus including gender and the Aboriginal peoples in Canada.

Who Should Attend:

Open to undergraduate and graduate students; and health and other professionals and administrators.

Prerequisites: 3 Credit hours at 1000 level Biology or permission of the Instructor. Plus 30 Credit hrs [for MULT/BCHM-2119] or 90 Credit hrs [for MULT/BCHM-4119] in undergraduate program. For graduate students, enrollment in a graduate program or permission of the Instructor.

Registration: Commences March 21, 2011.

On-line or In Person at the University of Winnipeg
